JOHN BURROUGHS HIGH SCHOOL

BURBANK, CALIFORNIA 91506

SENIORS.....16

After waiting three long years, it finally happened. We have become seniors. We have lived through it all. Now it's on to a hopefully successful future.

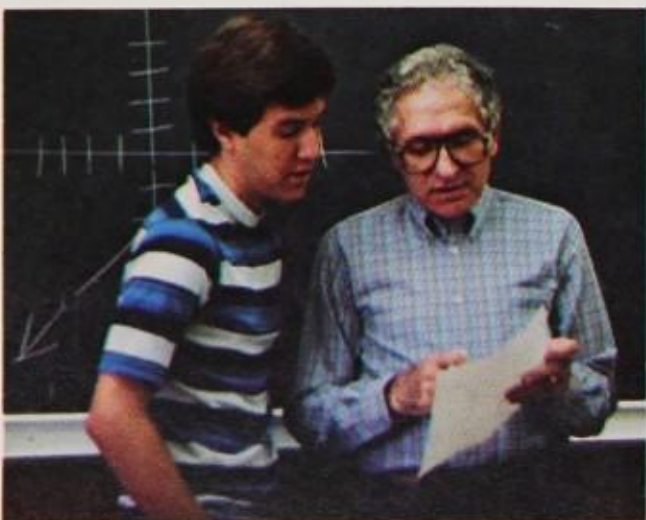

JUNIORS.....48

With only one more year left of high school, the "Middlemen" eagerly awaited their most celebrated year as seniors.

SOPHOMORES.....66

Starting at the bottom, sophomores got in the "flow of things" — even after enduring their share of "abuse" from juniors and seniors.

ACADEMICS.....82

Being bombarded with homework and tests were only a few problems that a typical Burroughs student had to contend with.

inside AKELA

SPORTS98

There was more to a Burroughs student's life than academics. Instead of rushing home at 3:05, some students participated in interscholastic athletics.

SPIRIT142

Cheerleaders and band members did an excellent job this year, leading the crowd and rooting our teams on to victory.

ACTIVITIES.....160

To escape the drudgery of academics, many students participated in extracurricular activities such as CSF, clubs, ASB, Akela, Smoke Signal, drama, band, and dance.

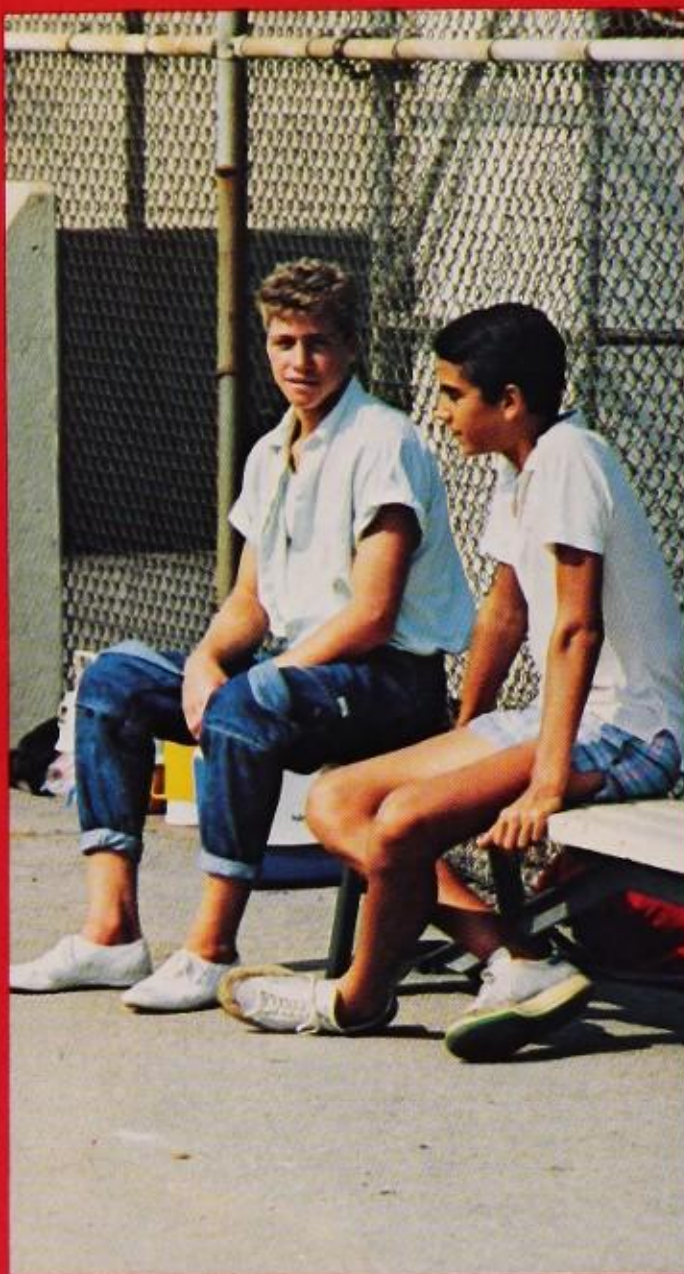

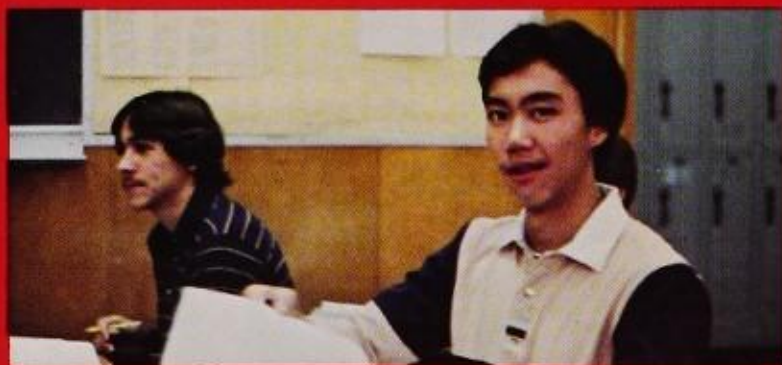

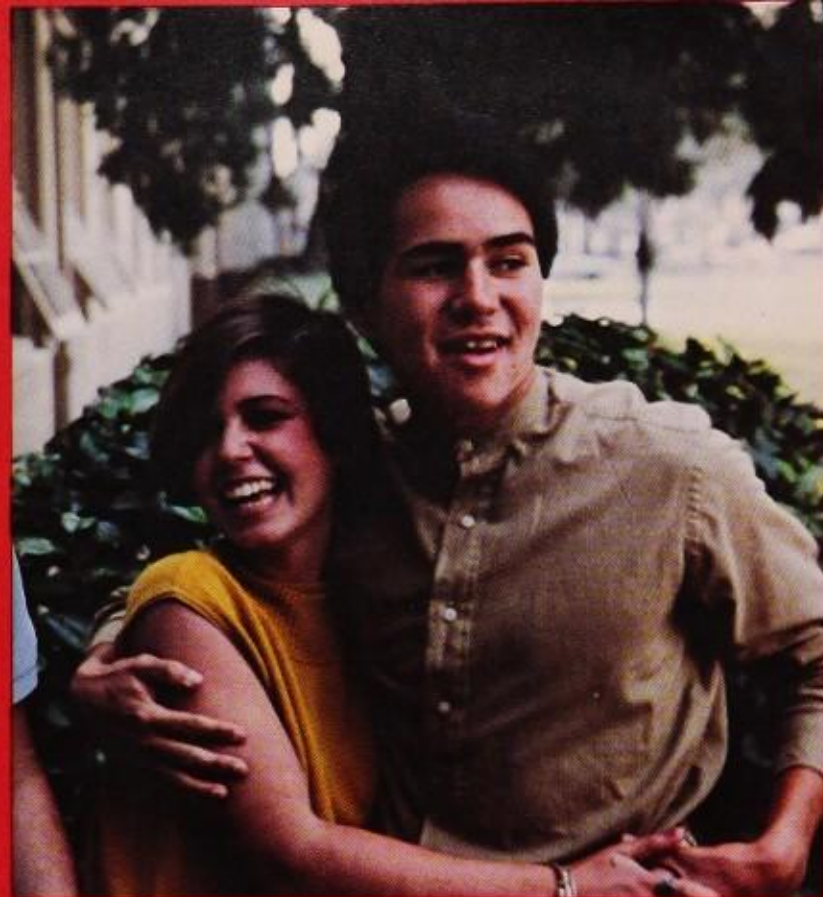

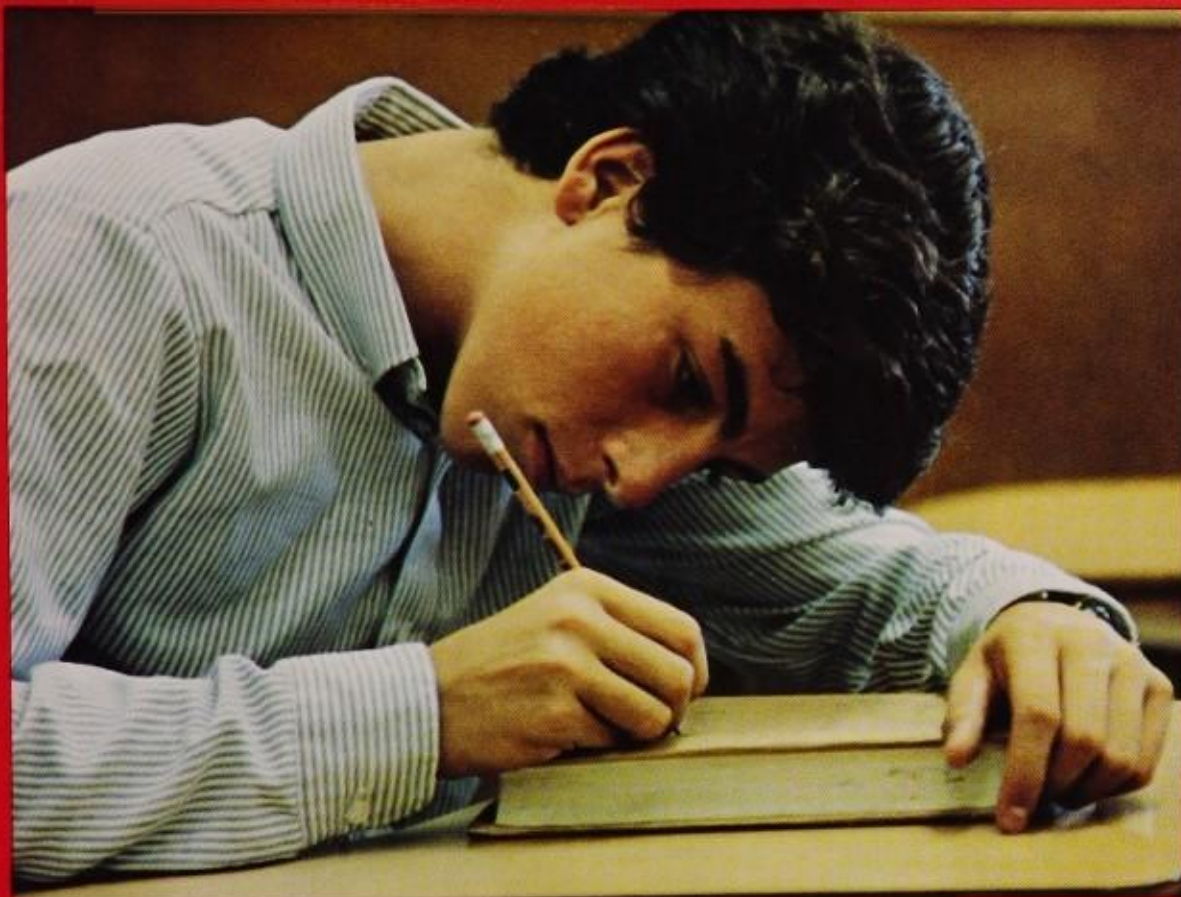

REMINISCENCES.....193

The year has finally come to an end. We can now look back at the past — whether good or bad — and move ahead into the future.

THE RIGHT STUFF

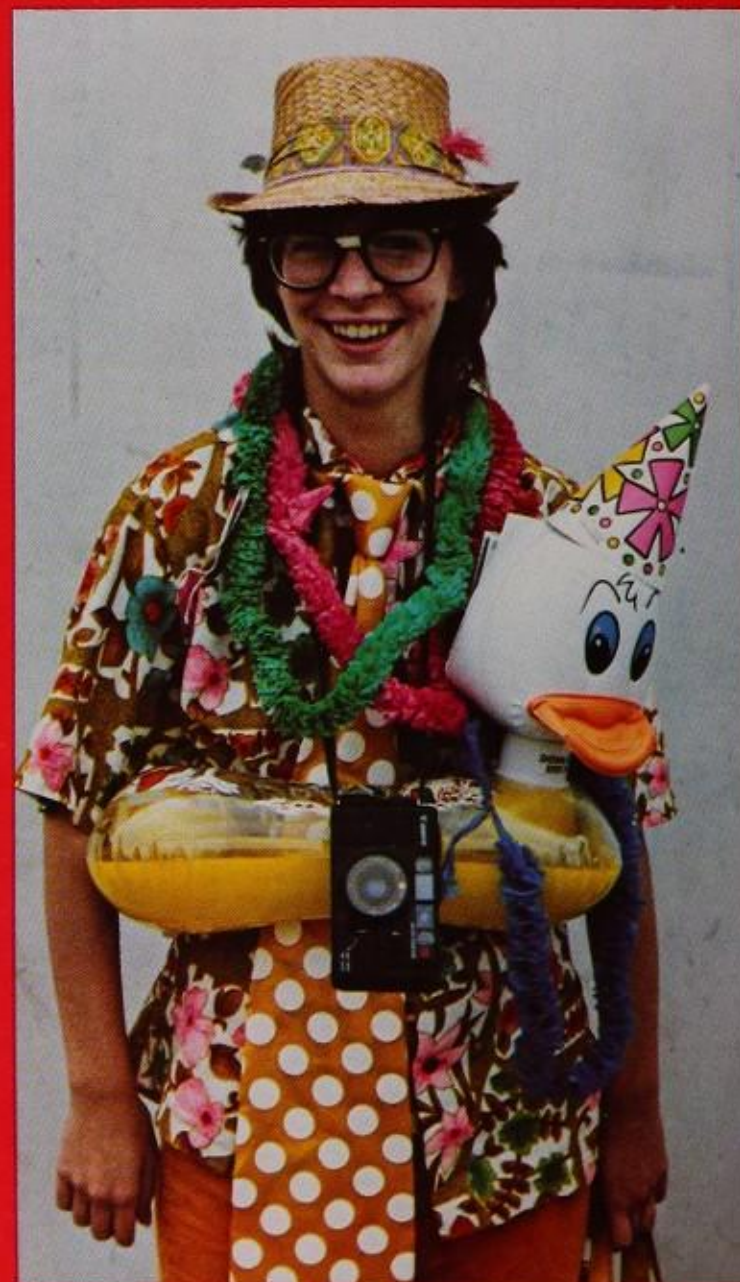

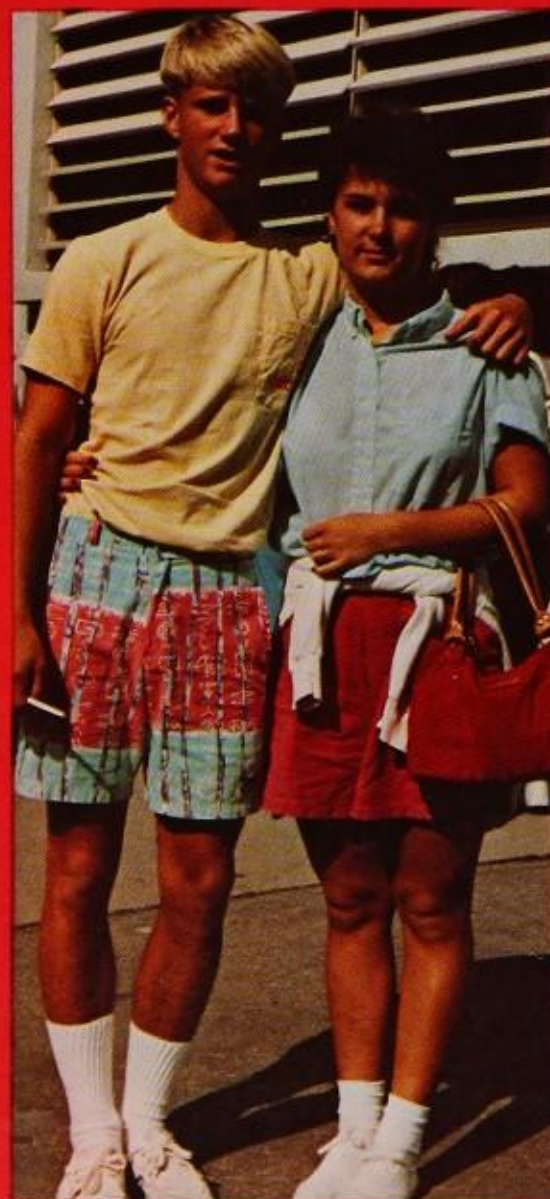

The exhilaration of being a Burroughs student was felt by all the many guys and dolls on campus this year. The adventures of learning formed an exciting path that enabled every one to participate in academic choices which would prepare him for a successful life after graduation. Biological dissections, computer punching, complicated mathematical permutations, and deciphering of strange Teutonic texts were all part of the learning experience. Additionally, the extra curricular activities which dominated the after-school hours helped Burroughs to strive towards its goal of producing students who were athletic and cosmopolitan, as well as scholarly. We had *fun*, too! From the confusion of a sophomore's first day on campus to the anticipation of a senior on graduation eve, students felt the pride, joy, and sense of accomplishment that combined to make them the best tribe of Indians yet — the right stuff! ■

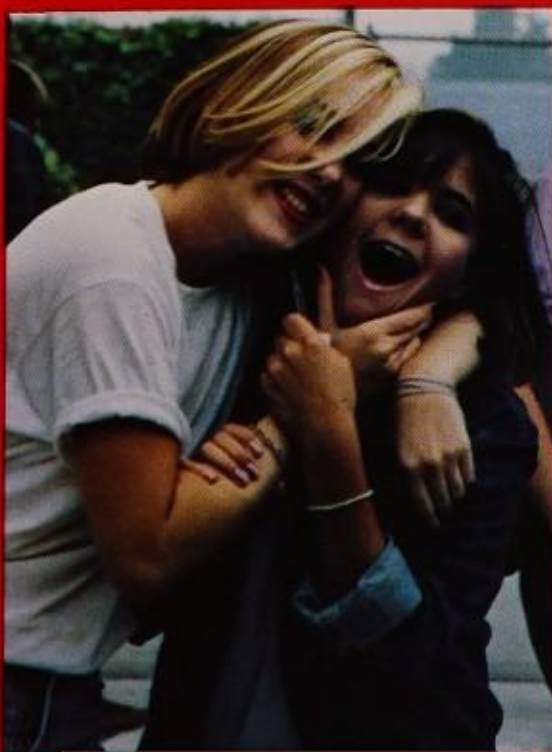

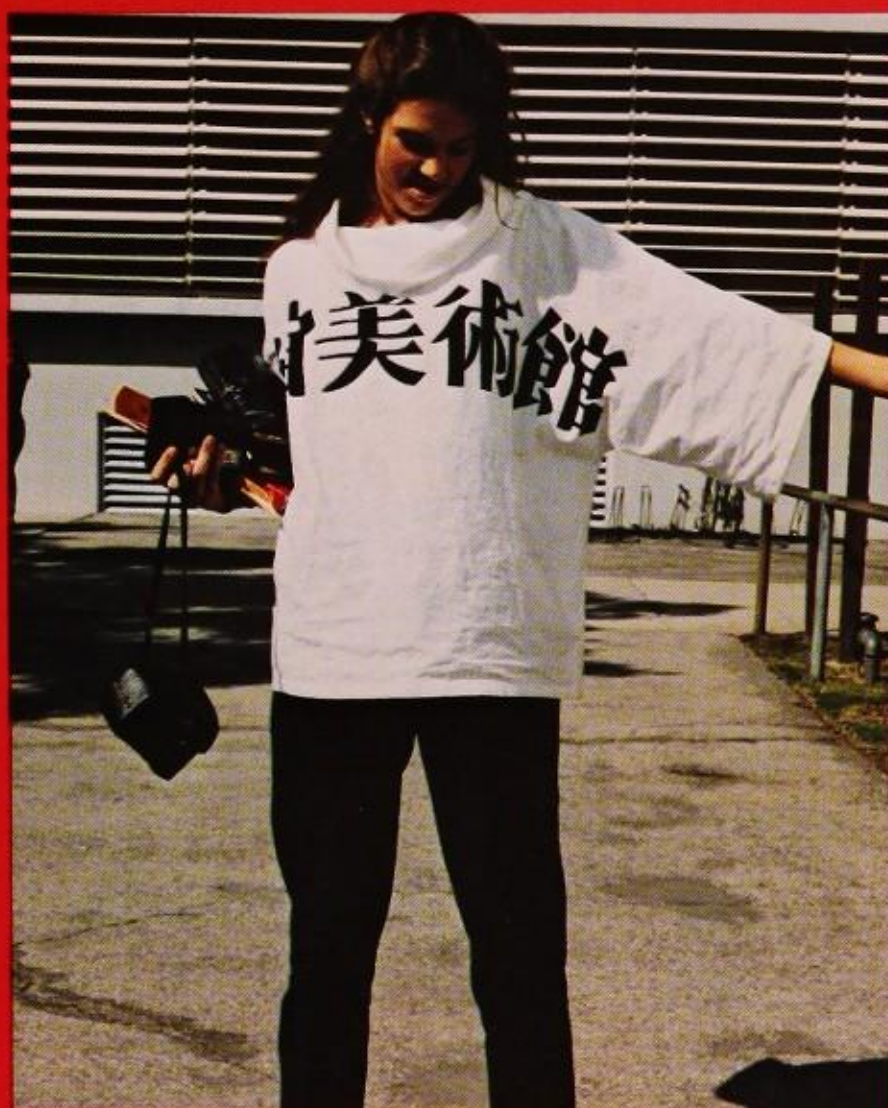

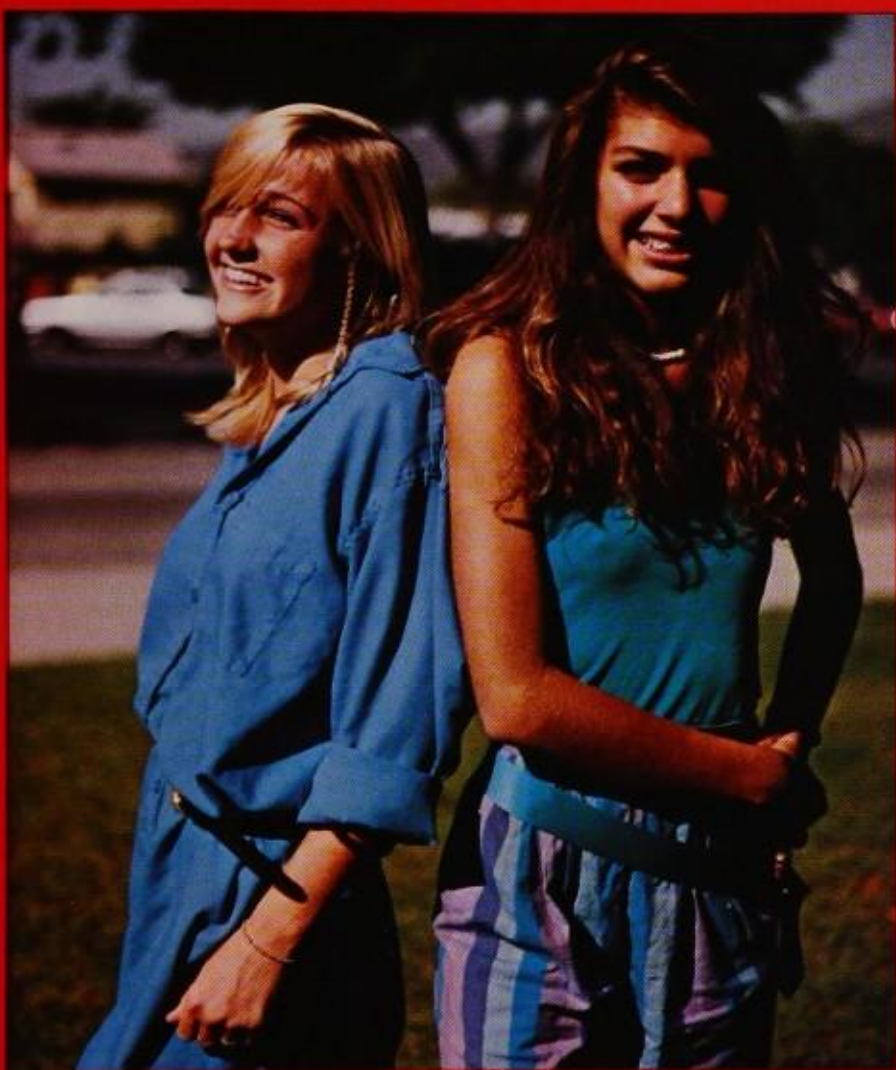

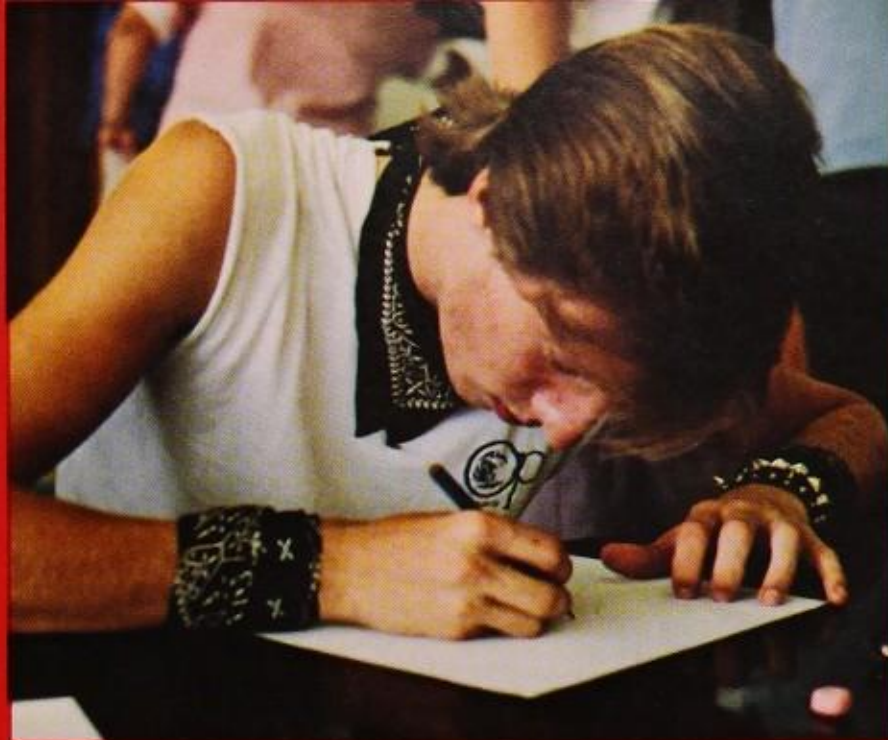

GOING IN STYLE

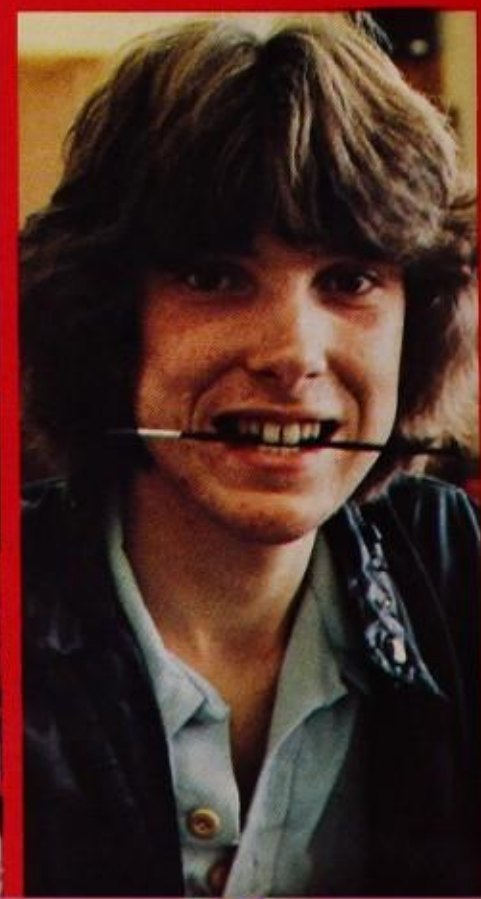

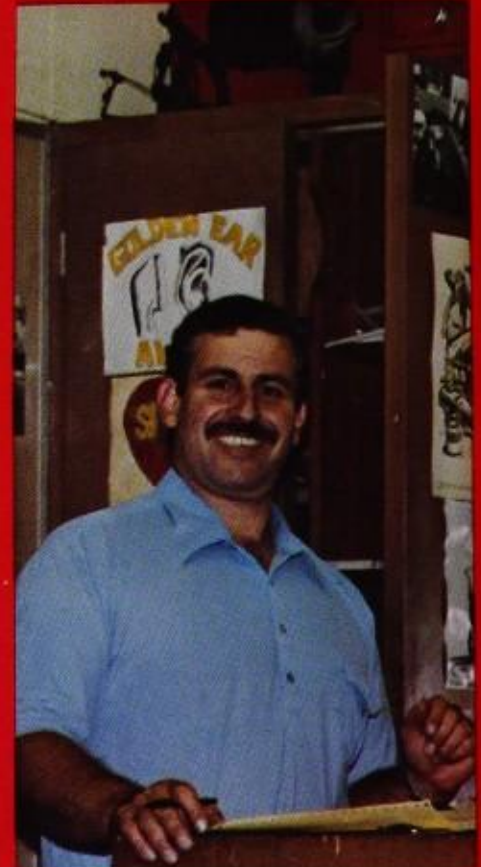

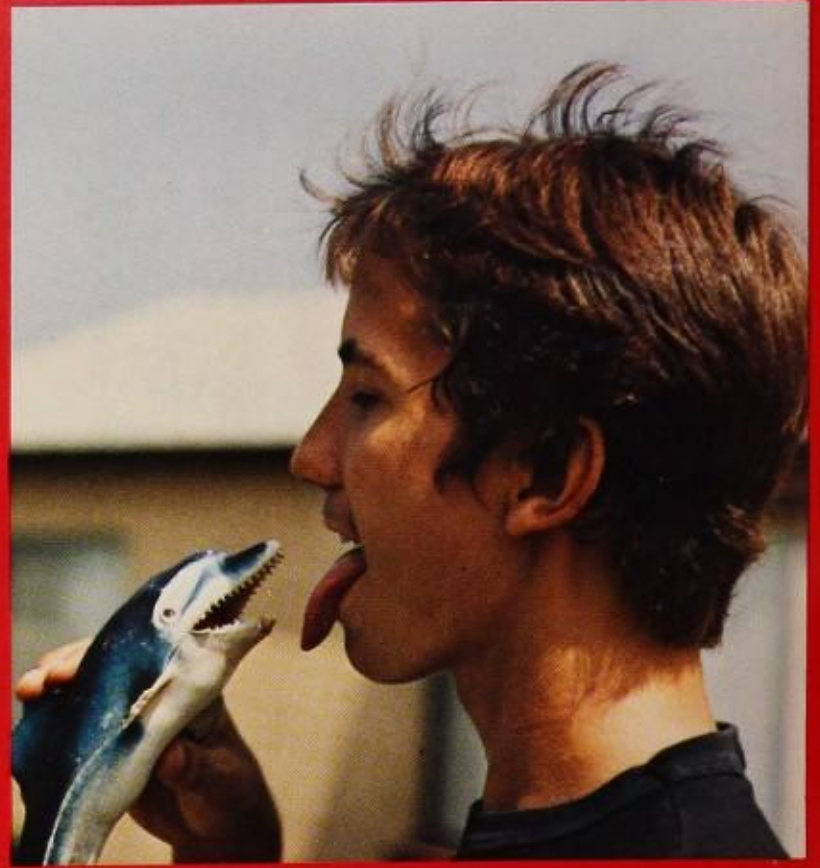

This years fashions were colorful, imaginative, and outrageous! Everything went — from button earrings to bermudas; from penny loafers to punk-styles; reaching back into the nifty 50's and ahead into the future. Limitations of the recent dress code didn't seem to cramp the "style" of very many students. Lettermans jackets, 501's, Izods, and K-Swiss walked the halls with Flash-dancers, spiked wrist bands, and high heels. Something for everybody at the J.B. Fashion Scene. ■

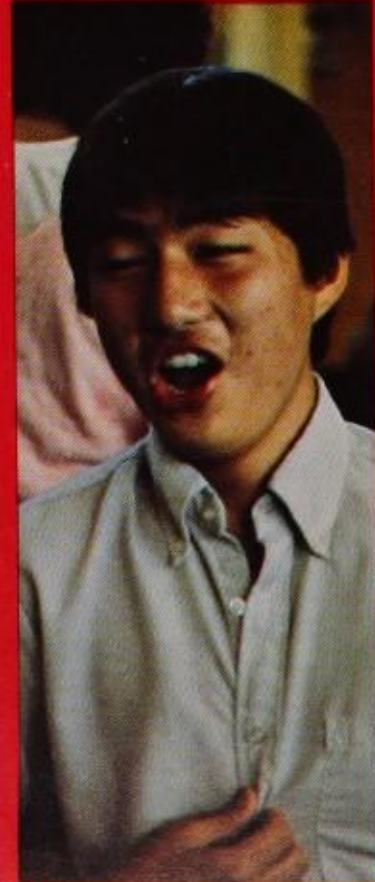

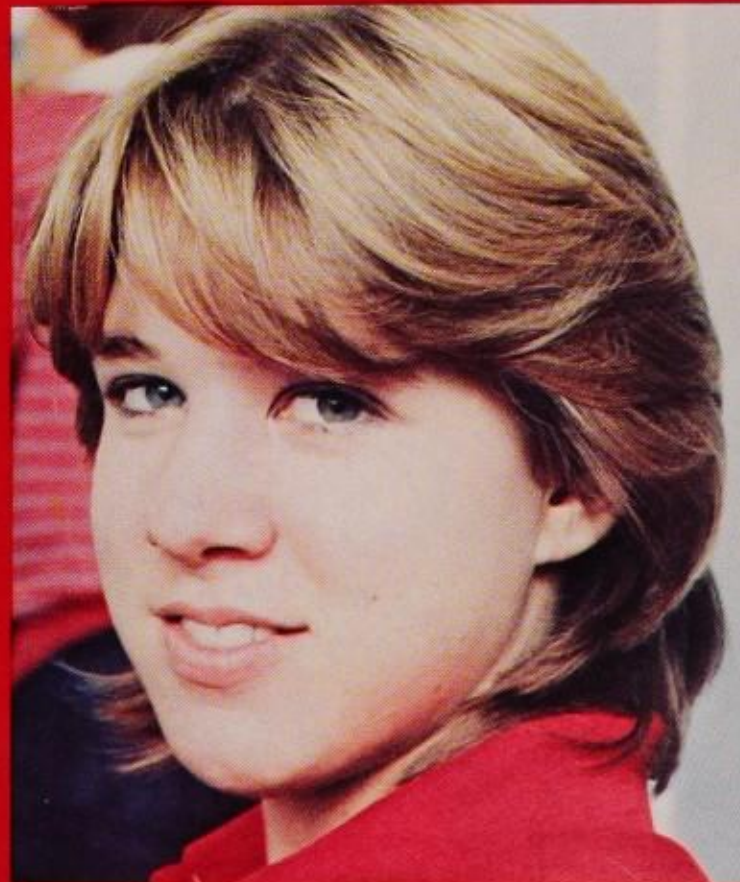

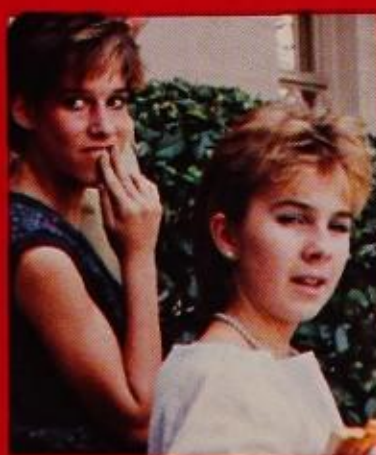

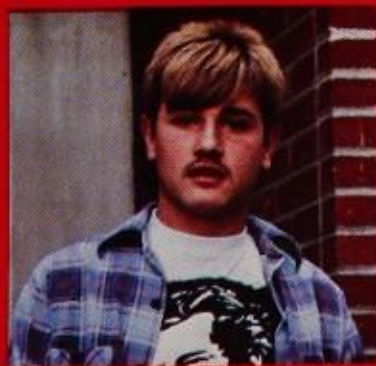

LASTING EXPRESSIONS

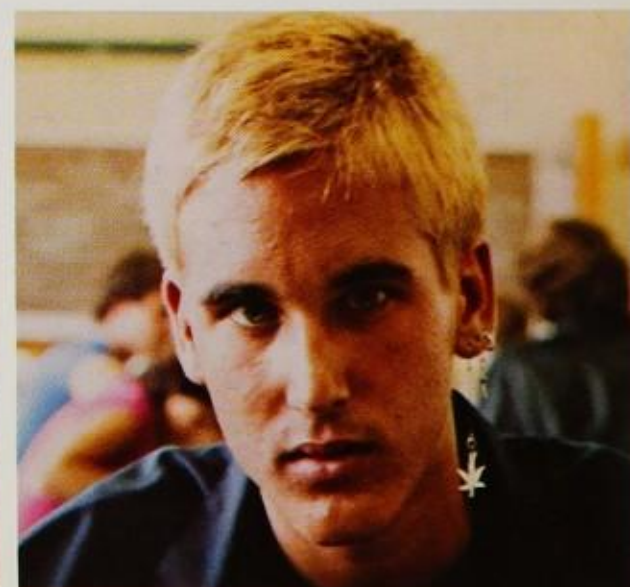

Cute, tall, petite, intriguing, attractive, winsome, gnarly, charming, buff, marvelous, amazing, extraordinary, vivacious, animated, killer, dashing, dynamic — these are some of the adjectives describing the faces that you meet on the Burroughs campus. Faces, and the people underneath them, are what this book is about. Faces reflect emotion, convey feeling. They register hate or love joy or pain — they are the barometer of the soul. Each of these people, from spritely underclassmen to classy seniors, were the "soul" of J.B.H.S. — contributing their share and creating our distinct personality. ■

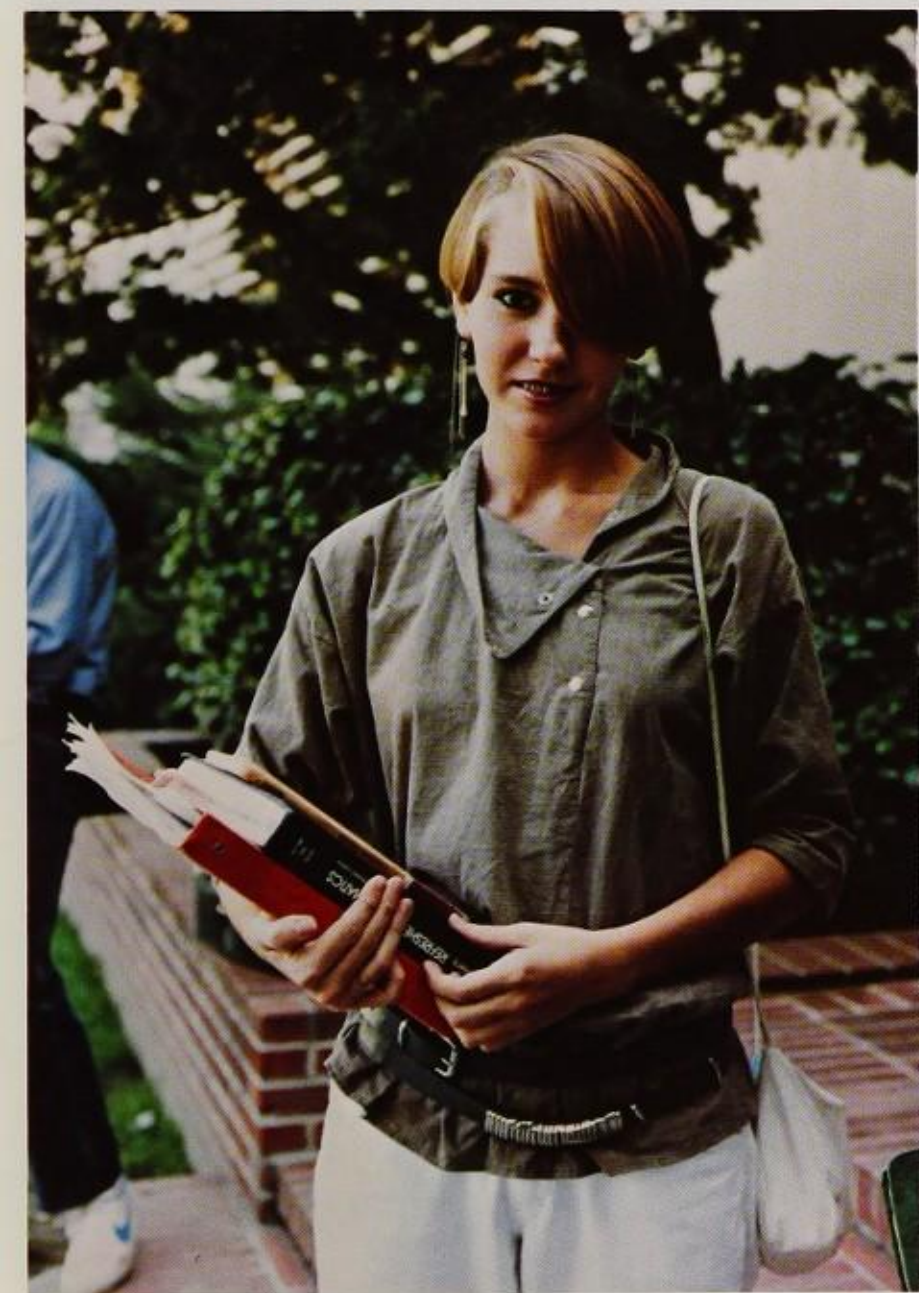

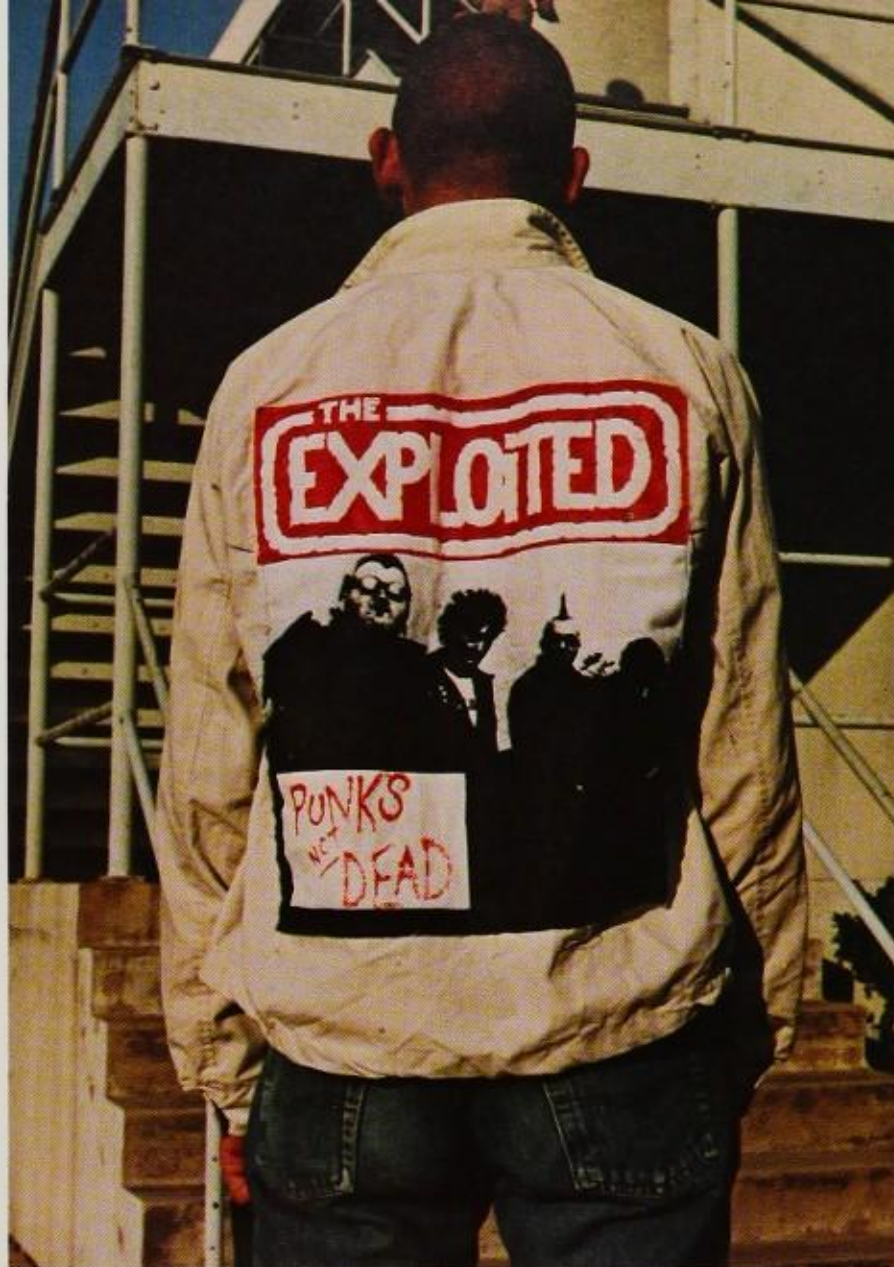

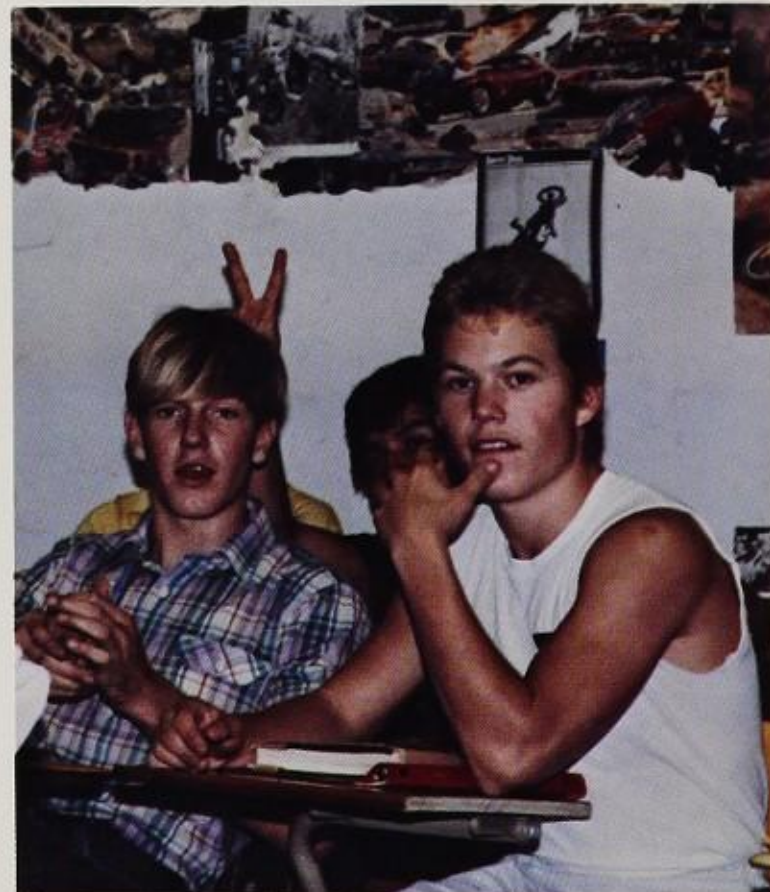

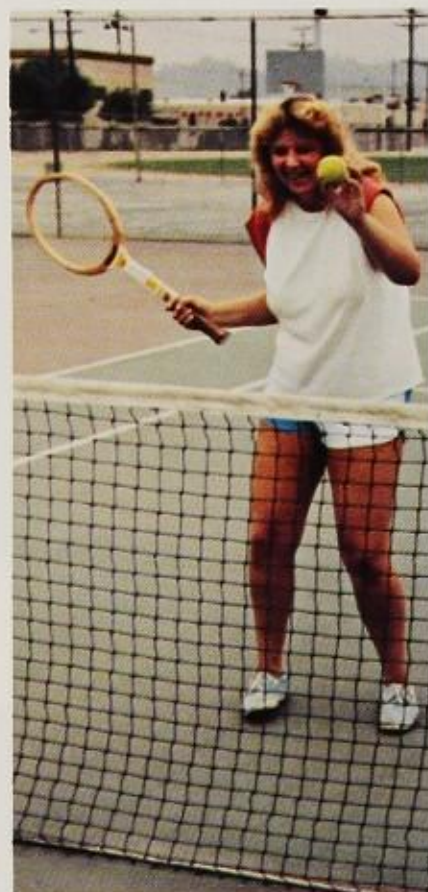

ROCK ON

As usual, music was an important part of a high school student's life. Throughout the year, many adopted the "heavy metal", "Flashdance", "new wave", or, "punk" look. These images were seen in the different styles of clothing-leather jackets, Capzio shoes, concert shirts, "cut" and "torn" sweat shirts, costume jewelry, pumps, and, jackets with punk band logos on the backs. Many students at Burroughs also listened to their favorite group on "Walkman" radios or portable stereos. Music was in the air and the JBHS student body "Rocked On" into the 80's. ■

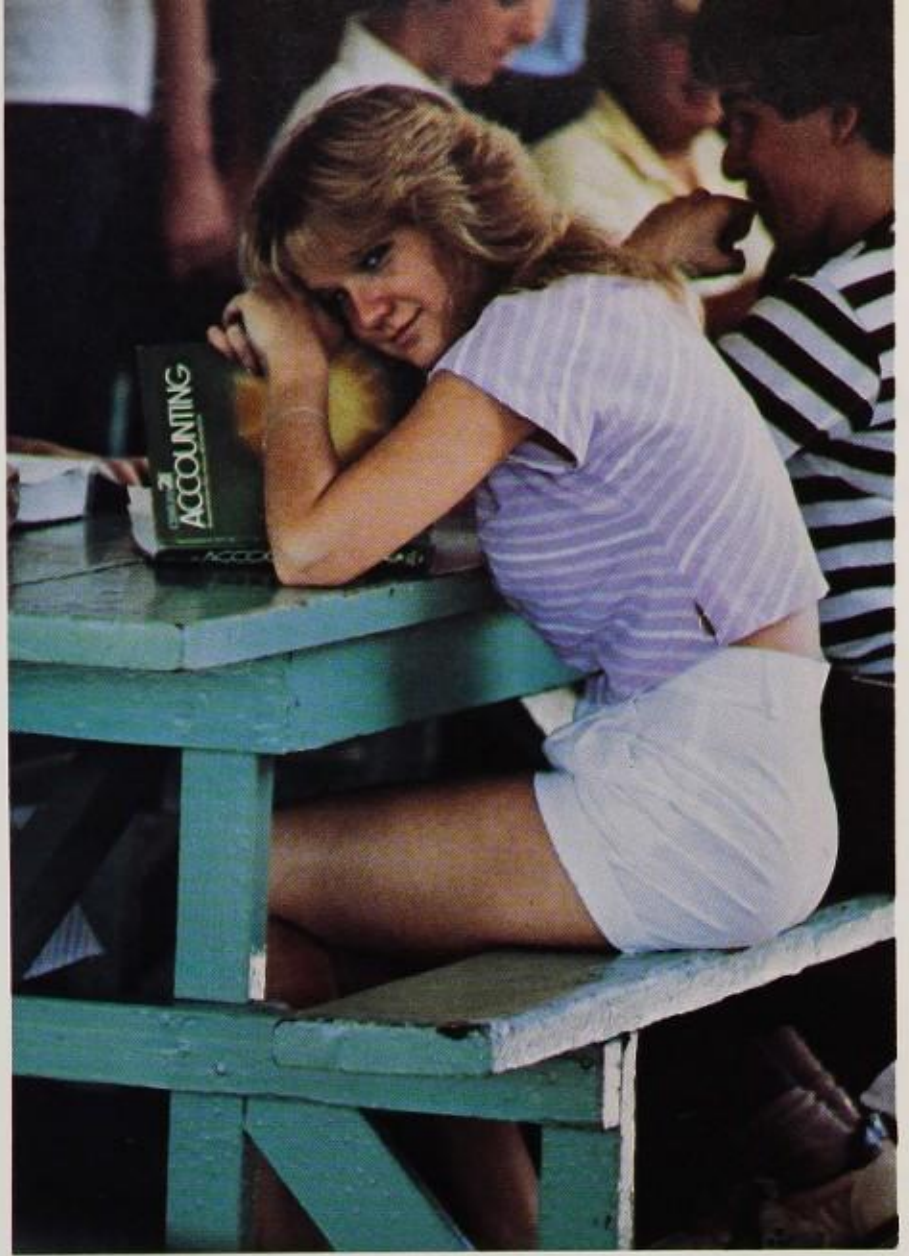

CAMPUSCASUALS

Campus activity was very diverse this year. Whether it was pumping iron in the weight room, playing challenge water polo at lunch, going to the beach on weekends, or cheering for football on Friday nights, Indians found plenty of "casual" pursuits to occupy their spare time. For many, being a student at J.B.H.S. meant belonging: pep groups, marching band, athletic teams, performing arts, a wide variety of clubs, special classes. It also meant being involved. PTA membership drives, bake sales, car washes, Red Cross Blood Drives were but a few of the myriad of opportunities available. We were never at a loss to have fun, whether it was clowning around with Coach Grimes, "catching some" at the beach, or just being with friends. This year was a good year indeed for just being yourself. ■

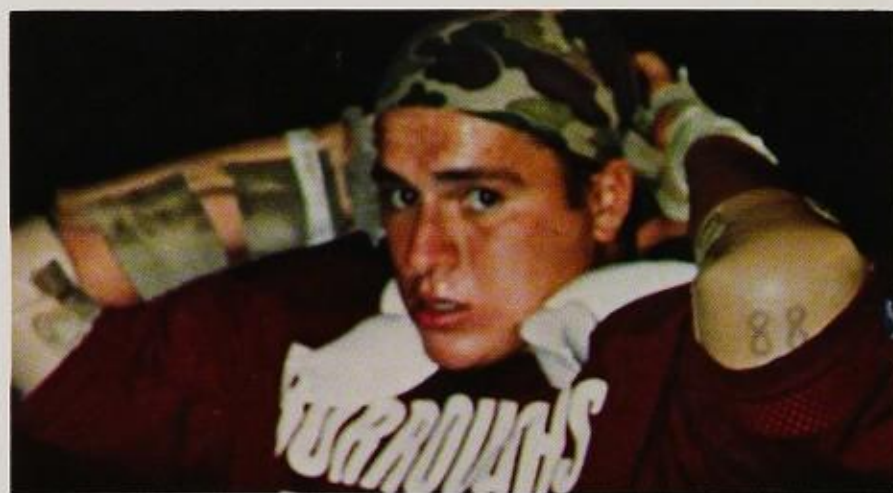

ESPRIT

Esprit (e sprē) n. (Fr.) 1. Spirit; enthusiasm, loyalty: as, school spirit.

J! B! H! S! Highly charged energy and enthusiasm were again a testimonial to John Burroughs' proud tradition of "esprit". Spirited crowds led by John Burroughs' distinctive Red and White supported our Indian teams with electric intensity. The band took the field with characteristic vigor, dazzling our eyes with color; our ears with musical pomp. The Indianettes and spirit squads stirred our blood with precision routines and brought us together with resounding cheers. This year was a spirited celebration of excellence! ■

"... I have accomplished a lot."

"Not quite an adult, but better than a junior."

"Having a blast!"

"Boring!"

"Not as easy as you think."

"It's a privilege; I finally get to start my life."

"... Something we will remember for the rest of our lives."

Seniors

SENIORS

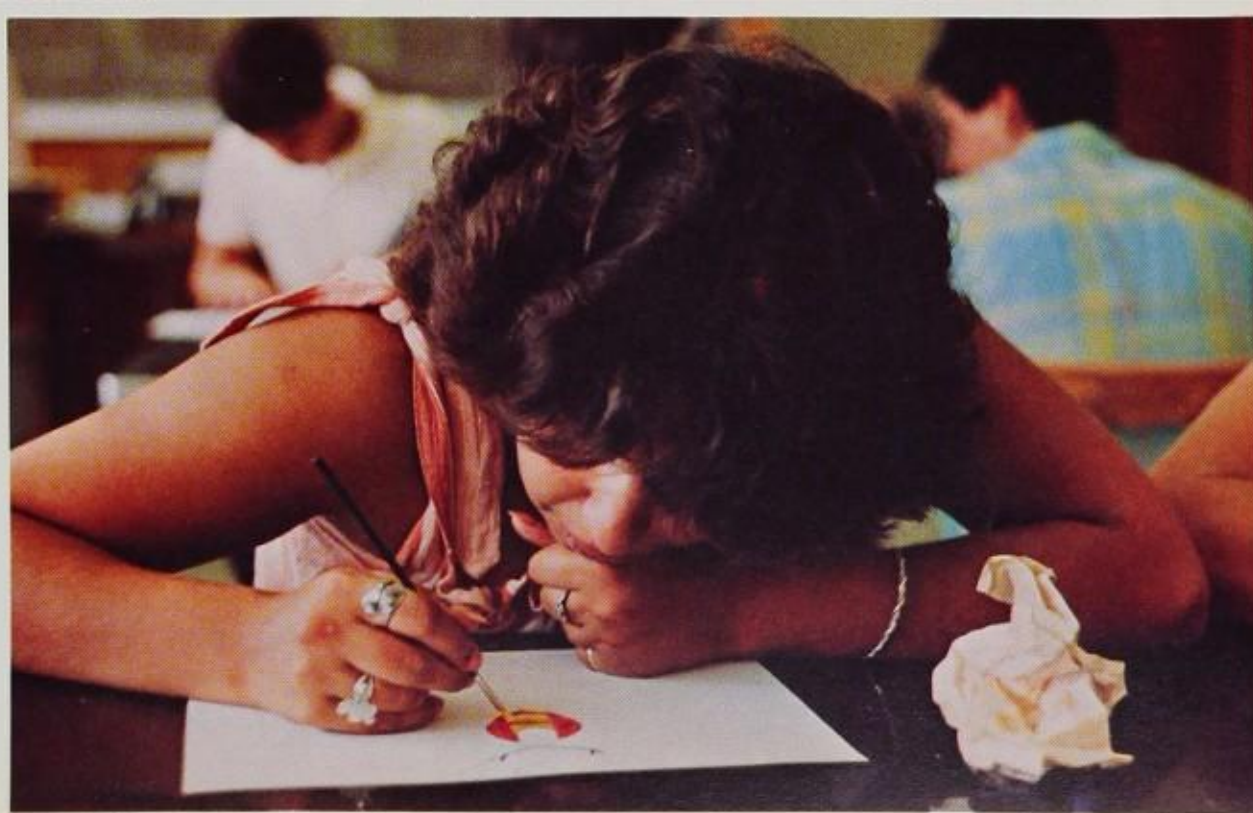

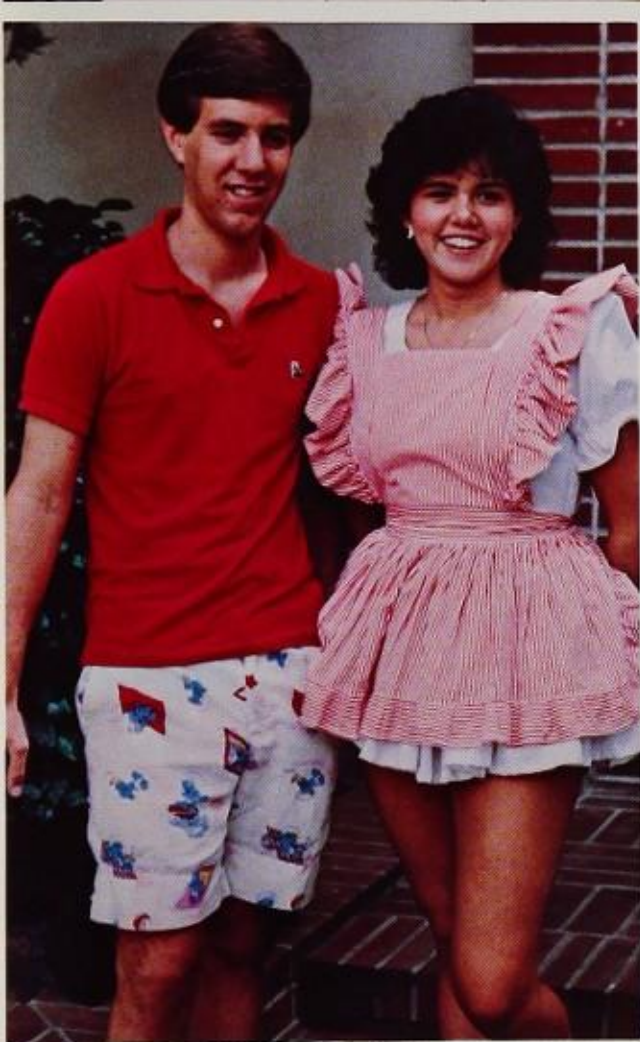

After two long years, it finally happened; you were there — you were seniors. There was nothing like knowing that only one year; two semesters; four quarters remained. The year beckoned feelings of great expectancy, excitement and, even, a measure of regret; — Senior Prom, Coronation, Homecoming, that last Varsity game, farewell parties. — SAT's, AP's, GPA's, entrance applications, job applications, college applications: Where? When? How much? Was I accepted? Did it matter?

Decisions, decisions, decisions.

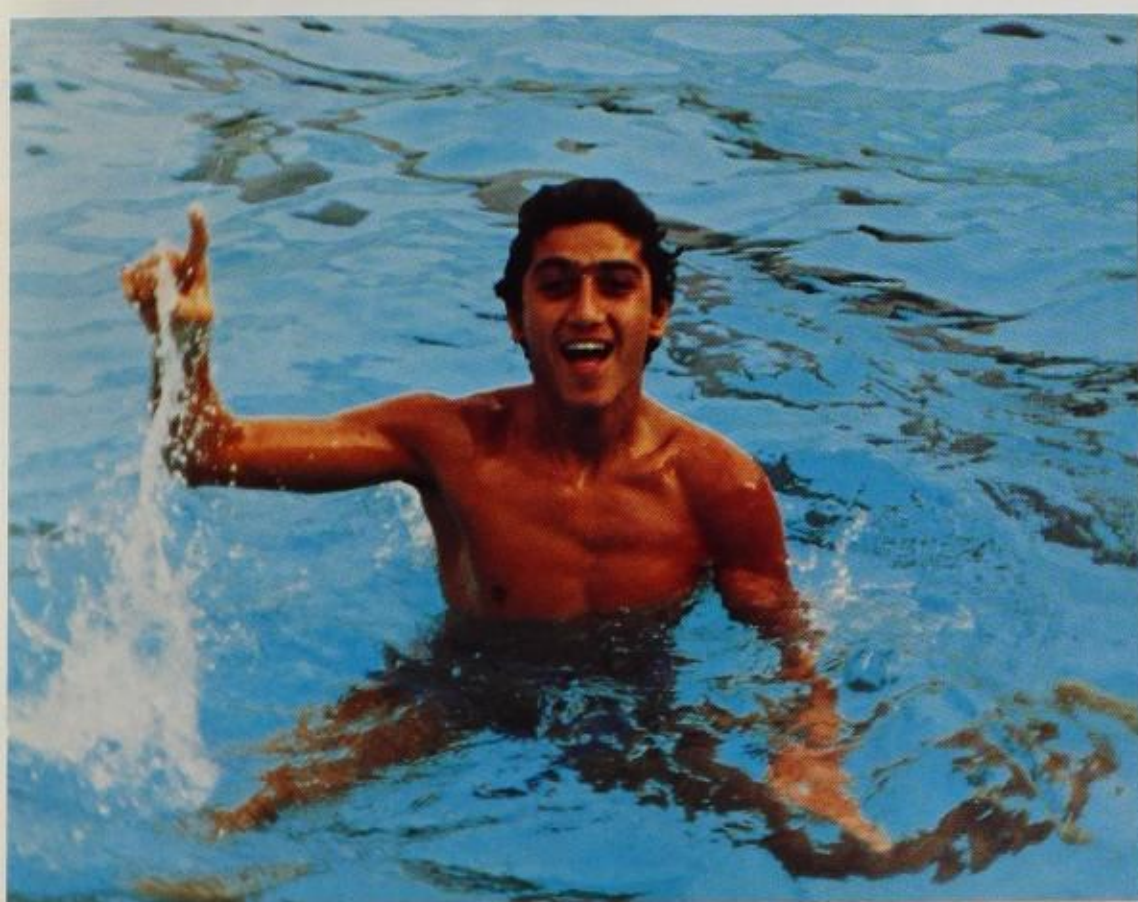

But agonizing over piles of paper, endless figures, No. 2 pencils and bubble columns didn't slow the class of '84 down. And they didn't let the scourge of "Senioritis" keep them from making the most of their "last blast", either. Senior involvement was as strong as ever and there was still time to experience the pleasures of relaxing and socializing with friends, cheering at rallies, and kissing between classes.

In spite of the pressures and because of the fun, 1984 at Burroughs was worth it. For the class of '84, an end . . . and a beginning. ■

SCIENCE

An Apple for Burroughs

The Science Dept. was given charge of an Apple Computer this year (donated by "APPLE" to the school). Teachers in the department are aware of the importance of computer technology and its applicability to related fields. As a result **Ms. Ryerson** (already trained in computer science) and **Mrs. Feuchtinger** (a quick study) involved themselves in this rapidly

developing area. Student interest in learning computer language, and gaining "hands on" experience, was high on their list of priorities.

Science is one of the few academic courses which does not need to follow sequence. Students could select Biology 1-2, Chemistry 1-2, or Physics 1-2 in any year. With SB813 requirements in Science and Math increased, it has become

evident this year that soon another course will be added to expand the department, affording students the opportunity to fulfill the new state requirements.

An example of our Science department's outstanding program this year was the capturing of the Bausch & Lomb Award for Math and Science by senior **Rizal Lopez**. ■

BUSINESS ED.

Booming

The Business Education department has been fortunate to get equipment each year from the Federal Vocational Education Act (VEA) Funds. As a result of the funding, we now have two rooms with electric typewriters, and this year marked our second with a computer laboratory available for the use of the Computer Sciences and Advanced Accounting classes.

In the Office Procedures Laboratory we also have electronic memory typewriters, correcting typewriters, a Compugraphic computer typesetter, calculators, transcribing machines, and other modern office equipment, which have ushered the Business Dept. into the computer age. Best of all, we had a good group of interested business students and teachers. ■

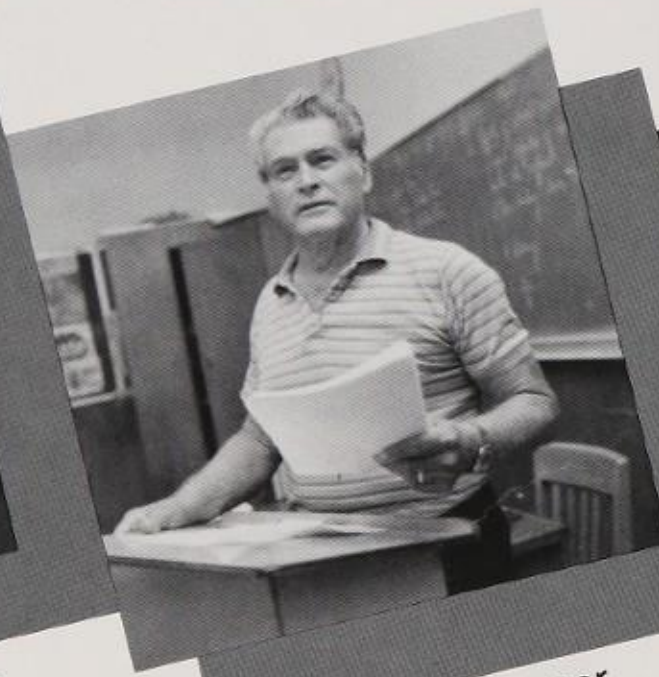

SHOPS

Hammering For Help!

All the Industrial Arts classes suffered cut backs this year. Last year, five woodshop classes were offered — this year, only four. Skill levels were combined, making teaching quite difficult at times. Industrial Arts classes were not offered in the afternoon and were this put in the position of competing with academic required courses. As a result, enrollment suffered, students were denied, and the program was hurt. The Industrial Arts Dept. sees its role here at Burroughs as one of providing an opportunity to explore potential in vocational areas. Let us look to the future, hoping that this valuable program will continue forward in spite of difficult times. ■

PARENTING

Not For Females Only

The Parenting class provided students, both male and female, with the practical advantages of active vs. passive parental responsibility. In today's changing world of single or divorced parents, working mothers, house "husbands", and dual roles, it was not surprising to see male interest in this subject area peak.

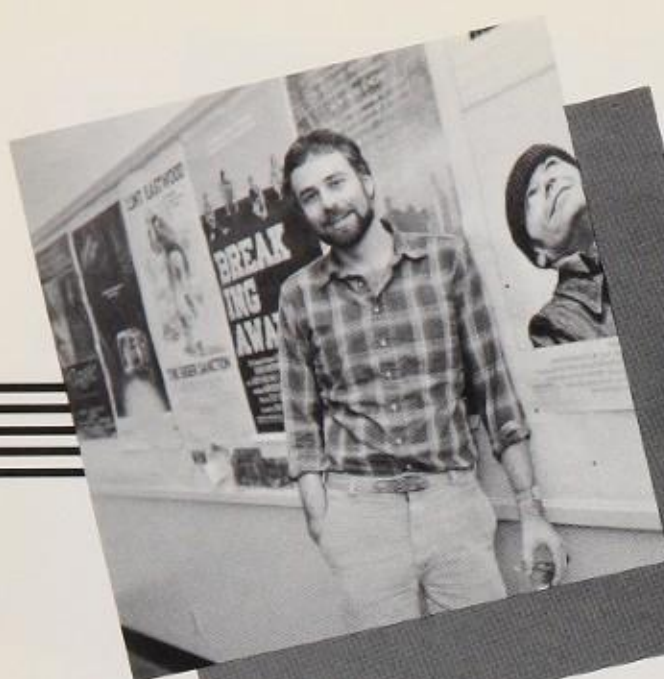

In the Parenting class, students developed a practical understanding of what it is like to be married and raise children. The course of study included planned activities to compliment the various theories studied. In this way, students were exposed to real life experiences in dealing with children. ■

SPECIAL ED.

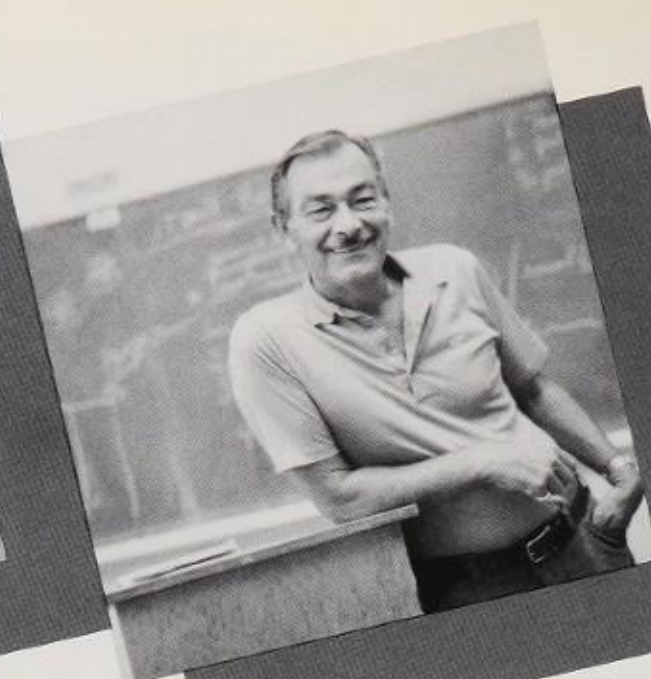

Accomplishment and Confidence

A part of the Special Day Class program, each student, by law was afforded his/her own Individualized Education Plan. In effect, the student's needs were pinpointed and a program was devised to satisfy specific goals and objectives established as part of the I.E.P. Every effort was made within the department to assure a successful experience for the program this year.

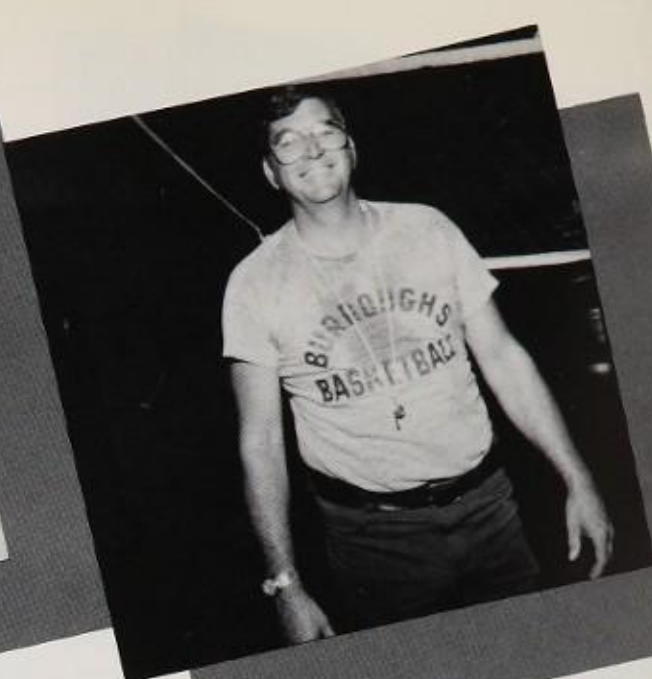

The classroom was multi-graded and an aide was provided through federal funds to assist the students. Much resource work among other instructors facilitated student achievement and assured a sense of accomplishment and confidence. ■

FOREIGN LANGUAGE

Cultural Communication

Due to an ever increasing interest in foreign language, Burroughs added two more foreign language classes to the program this year. There was filled placement among Spanish 1-2, Spanish 3-4, and Spanish 5-6. The increased numbers in the third and fourth year languages reflected an awareness of future world conditions.

In Spanish, students realistically selected courses which would offer

them a practical means of communicating with our high percentage of native speakers. As an added bonus, they prepared themselves for highly competitive job market, wherein being bi-lingual certainly affords a decisive advantage.

The French classes experimented with a new technique called "La Philosophie de la Faute". Students immersed themselves in the French

language with little or no reference to English, and enjoyed it thoroughly. Besides an in-depth study of France — its fashions, cuisine, and culture — importance was also placed on the awareness of other French-speaking countries.

Further efforts are being made to acquire newer films, videos, and other media for the foreign language department to enhance student's appreciation of other cultures. ■

SOCIAL SCIENCE

New Faces in Social Science

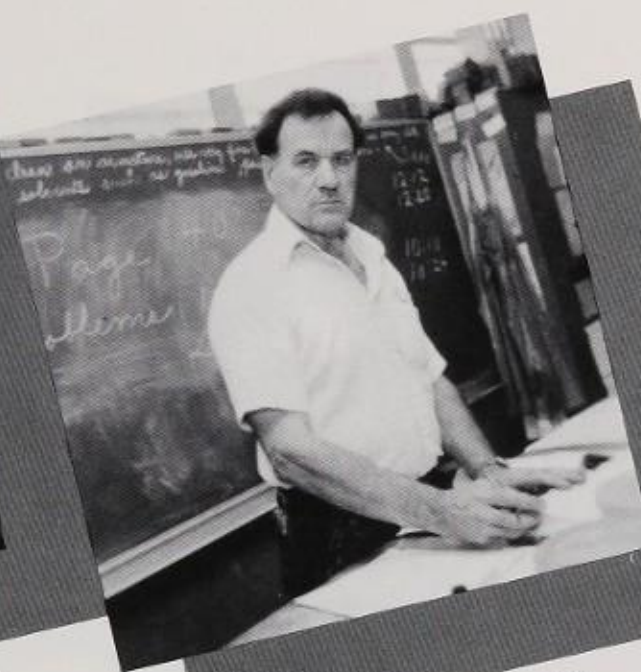

The school year 1983-1984 saw a reduction in the class offerings in Social Science. In order to meet the new requirements of the State Framework for the Social Studies, and to accommodate the pressures of reduced funding and lowered enrollment, many changes had to be made. Chief among these changes was the dropping of U.S. History electives. This year all juniors were required to take the same

two semester sequence of U.S. History courses.

New faces in Social Science were **Mr. Barney Gantz** and **Mr. David Goodlaw** (U.S. History). **Mr. David Hermans** took over the reins of the Close-Up program for the trip to the nation's capital in March. Twenty-three students accompanied Mr. Hermans to experience the inner workings of our national government. ■

FOODS

Food Can Be Your Favorite Subject

If you were one of those students whose favorite subject was LUNCH, then cooking was the class for you! Students have been expressing sheer delight with their own tasteworthy creations for many years.

Turn on the processers, blenders, and mixers, and prepare yourself for a treat! Cooking teaches the students how to read and follow directions, accurately measure, and systematically prepare entire meals. Tips and shortcuts are provided to help prepare the recipes faster and to make clean-up (the

part we dislike the most) easier. Planning and shopping to determine needs beforehand were also important basics that accompanied the course.

Important events in the Home Ec. dept. this year included a cookbook sale, the profits of which went into a fund to purchase new equipment and supplies, and a fashion show given by the Clothing students for the P.T.A. Students modeled their own creations. ■

ENGLISH

Moving "Write" Along

The English dept. at Burroughs prides itself in offering a variety of courses at a variety of levels in order to meet the individual needs of the students. Without a doubt, college requirements and high school graduation requisites have always played an important role in the course a student selects — this year was no exception.

In the Senior year, students are offered the opportunity of Advanced Placement, a two-term course which may give the student college credit while still in high school. To assist in preparing the college-bound student for success in the college, Elements

of Composition and College English Review I & II were offered.

What if your plans did not include college? Every walk of life demands some form of communication and English 7 was designed to adequately equip the students with communication skills. A positive awareness of the necessity of such skills and their own ability to perform them, helped the students to express their own ideas and concepts clearly and intelligently. Specialized courses such as Speech and Media, Business English, and Journalism were also available.

Among the course offerings in the Junior year were English 5 & 6 and Honors English (to prepare for the

A.P.). To further enrich skills, these courses were given on two levels. The x-y level is indicative of those students who aspire toward college. The y-z level is especially geared for those who find English a "challenge."

The Sophomore student could select English 3 & 4 from one of three levels to help him/her realistically establish and assess goals for Junior and Senior year.

Other courses offered by the department include: English as a Second Language, Reading Lab, and Writing Lab. These courses rounded out a complete program, providing instructional formats for students with specific needs. ■

MATH

An Expanding Equation

Growing interest and more stringent university requirements resulted, this year, in an influx of students into all areas of the Math Dept. Math classes were filled to capacity! The increased demand for technological competency in all fields made Math a priority for many students. Our Advanced Placement Calculus class expanded its membership and worked hard toward its ultimate goal: success on the fear-inspiring A.P. Test. The ultimate goal of the entire department took shape this year: computer literacy for each student. An "Apple" for every classroom! ■

Coming off a 1-13-1 1983 record and boasting only five seniors on its thirteen-strong roster, this year's varsity baseball team had its work cut out for it. Hart and San Gabriel, perennial contenders for the number one spot, were the teams to beat and J.B.'s chances depended upon how fast and how much they could improve during the course of the season. The Indians did improve and they did surprise more than a few people in their bid for the top, posting a respectable record for '84. Standouts on the Varsity Squad were pitchers Ray Cherney and Darin McChesney and defense men Paul Schepperle and Chris Latta.

Coach Steve DiLucca's JV team looked impressive this year, brightening considerably the outlook for next years Varsity tribe. A unified, hard working group of athletes the JVs included future stars the likes of Ron Franklin, George Robinson, Ritchie Trevel (pitchers), Jeff Smith (catcher), and Jim Noonan and Jason Norman (first base) among many other new talents. The boy's varsity came within an eyelash of winning its 5th league championship in six years this year. The Indians were just barely edged out by Hart in Finals. A young team, it should be dominant in next year's season. Even so, winning league next year may be tough if Hart retains its steam, and becoming Champion may be the greatest challenge faced by Burroughs cross country ever.

The JV's must have led charmed life this season. What else could explain 3 nerve-wracking wins over Hart, Alhambra, and Burbank? Whatever the reason, the JV's produced the only cross-country league title for Burroughs this year.

JB Water Polo made important strides this year. With no returning Varsity players, Burroughs relied upon new talent and a core group of former JV standouts for its strength. While not amassing an impressive win/loss record on paper, our athletes matured as a team and gained invaluable experience which will hold them in good stead in '84. Seniors Rizal Lopez, Ali Mohsenzadeh and team captain Minesh Patel were impressive in their final year. Their dedication and judgement were an important asset to our program. Juniors Adrian Spiga (Varsity MVP), Mark Larson (Outstanding offense), Sean Turner, Casey Gannon, Mike Andrews and Brent Ellingwood will return as second-year Varsity players, making next years picture very "rosy" indeed. This returning strength combined with that of sophomore talents David Kofoed and Tom Watts — and ten more returnees — will give Burroughs depth, power, and promise never enjoyed before. ■

Not pictured: Erik Bush, Minesh Patel

The JBHS boys team suffered heavy losses this year following the graduation of nine of its senior swimmers in '83. Depth is a necessary component to any successful swim team and we simply did not have it this year. We surprised a few people in spite of this fact, beating Canyon for the first time in 6 years and chalking up some impressive individual swim statistics. Juniors Adrain Spiga and Sean Turner, our sprinter and distance man, were among the top ranked league swimmers, while Brent Ellingwood, Casey Gannon and Marc Guite gave us new found strength in the Individual Medly, Breaststroke and Butterfly events. We were also blessed with a winning JV team, headed by neophyte standouts Tom Watts, Mike Shapiro, John Haney and Wayne Beauregard among others. Graduating two seniors, JB could very well be on the way toward that winning season we've been looking for.

Sean Turner takes off.

Members of the Girls Swim Team '84: (top l-r) Lynn Dupre, Laurel Perlman, Lynn Barkema, Coleen Maginn, Yvette Ost, Vicki Ellerbe, Lori Hull, Coach Scot Simmons (Middle l-r) Helenka Wormer, Stacy Markou, Carole French, Veronica Pledge, Cindy Meadors, Robin Mathias, Claudia Studer, Evelyn Ballesteros, Kim Kirby, Not pictured: Tammy Austin, Jacque Lamoreux.

This season said good-bye to outstanding Varsity swimmers Helenka Wormer, Evelyn Ballesteros, Ronnie Pledge and Laurel Perlman. Wormer, a sprinter, was reigning league champion in the 50 and 100 yd freestyle for three years running, a CIF qualifier all three seasons, and winner of the JBHS Most Valuable Swimmer Award in her junior and senior years. Ballesteros was our #1 distance swimmer for her two years here and the winner of the hard earned Iron Woman Award. Standing ready in the wings however, are a talented group of young ladies from this years outstanding JV squad. Butterflyer Coleen Maginn, Sprinter Lori Hull, Backstroke Cindy Meadors, and Breastroker Claudia Studer are but a few standouts on a team that was Burroughs best in many years.

Evelyn Ballesteros finishes a backstroke leg.

Golf, an often underrated sport at the high school level, is a demanding sport requiring concentration, practice and precision. Golfers put in long hours on the course honoring their skills to achieve just the right combination of strength and finesse. Although not achieving the record they might have wished this season, the J.B. team did finish strong showcasing the talents of many fine athletes. Seniors Sean Harkness, Kim Bell, Sean Gardner, Mike Formella and Allan Gardner completed their final season with impressive performances and sophomores Brady Riggs and Kevin Scheller are moving rapidly into the top ranks of league play.

At left and right, Varsity standouts Kim Bell and Brady Riggs display classic form.

The torch will be lighted high above the Coliseum, and for sixteen days, mankind will turn away from a world of conflict and strife and look to the Olympic arena. Young men and women will reach deep within to find their best, pushing farther the limits of individual achievement, and in so doing, expand the reach of all humankind. In commemoration of the Summer Olympic Games held in Los Angeles, California, the John Burroughs Akela staff dedicates this page to the spirit of the group of athletes who have devoted countless hours and immeasurable effort in preparation for an opportunity to gain honors only the ambitions can imagine and the best receive.

John Burroughs High School's spirit was sky high this year with Burroughs' very own mascots Laura Santillan and Lalaine Tan, leading the way. They began their duties by attending the United Spirit Association Cheerleader Camp last summer. There they learned numerous routines and rally ideas. Along with learning the routines. There was also time to win awards in which the Pep Squad won a spirit stick. Throughout the year, the mascots were present at both football and basketball seasons. Laura and Lalaine also participated in all the rallies. Their primary concern was to unite our school, by building more spirit in everyone. ■

The '83-'84 Indianette drill team has had a busy and successful season. They have placed in all three parades they competed in taking a second, a third, and a first place. Their highly skilled captain represented them in Miss Drill Team California Competition. Their performance was brilliant at halftimes for football and basketball games. They performed their annual drill revue on the Burroughs stage. Their success is due too experience, the captain's superb teaching and choreographic ability and student leadership in organizing competition teams, fund raisers, new head-dress, banquet, etc. ■

George White at age five — the metamorphosis begins.

"Wanted — Yearbook Staffers: Must be meticulous, artistic, competent, able to withstand extremes of boredom and intense activity. Insanity is preferable, if not essential."

Such was the call issued at the beginning of the year, and sixteen hardy and foolish people answered the call, and soon discovered that Akela was **not** just fun and games. True, many did migrate to ASB for a major portion of the year, but most hung around to see what was happening, and to work. Along with undesirable derelict Rizal Lopez, many other ASB flotsam drifted in during the year to check on the progress of the ASB Section, but despite these interruptions the yearbook progressed. It

wasn't always easy, but it was always fun. Just ask any staff member. We worked hard, did our best, and hope it reflects in this book's quality.

The change is complete: he is The American Rocker.

DRAMA

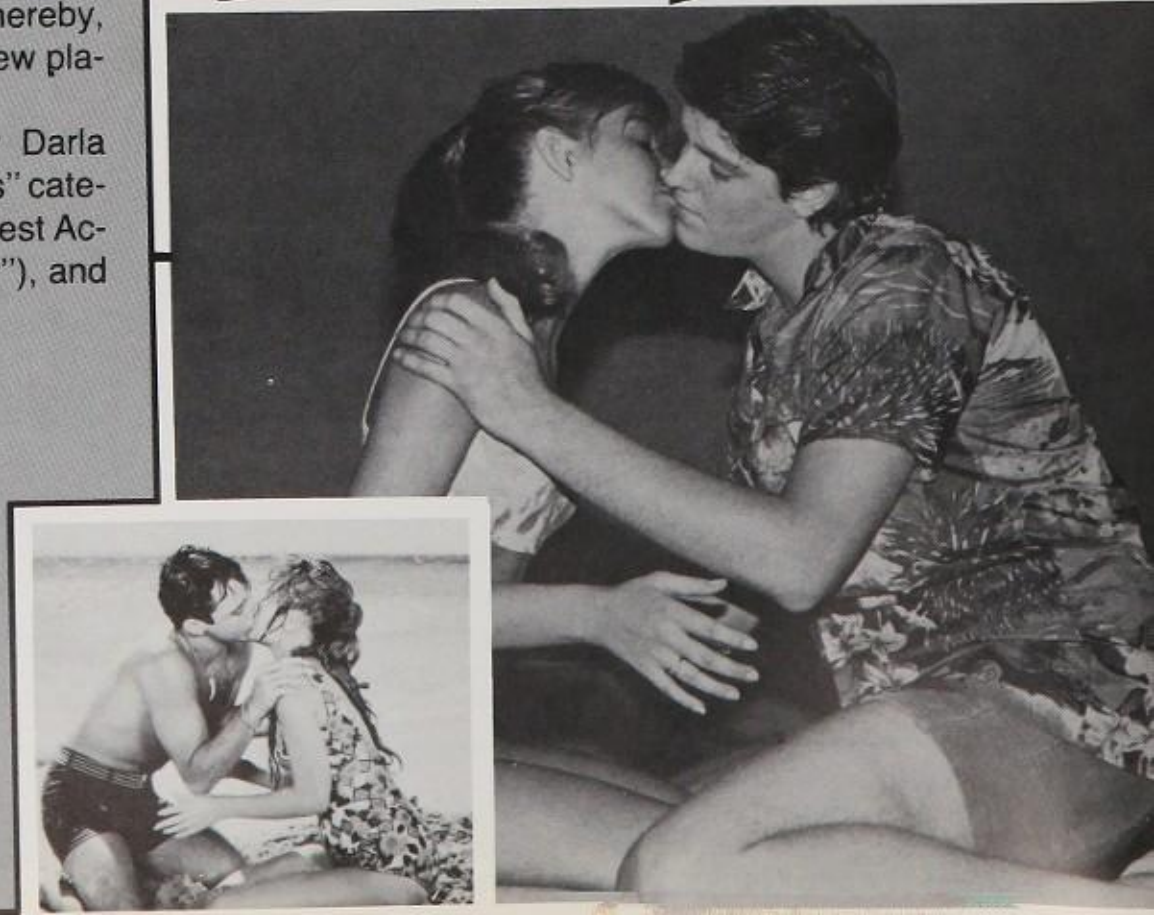

Getting Into the Act

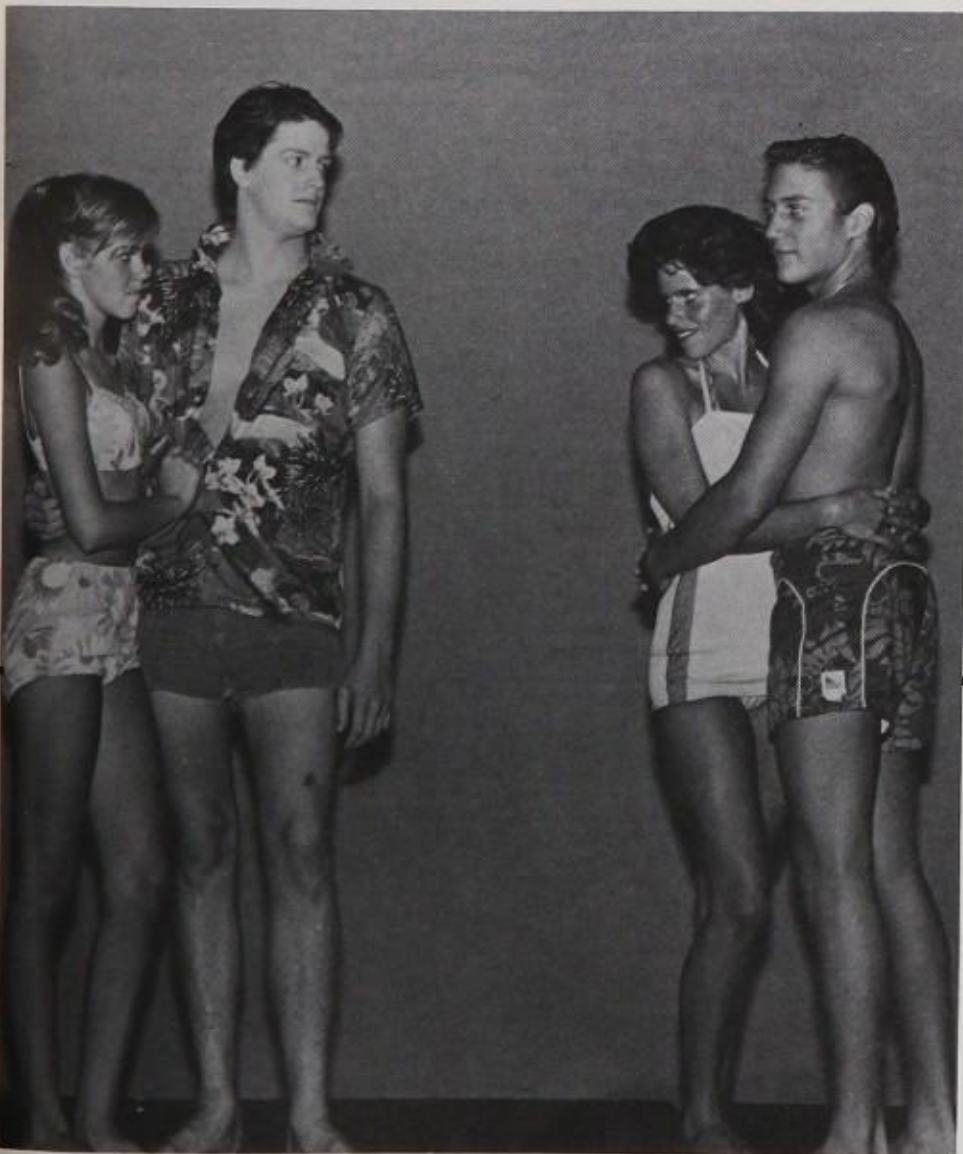

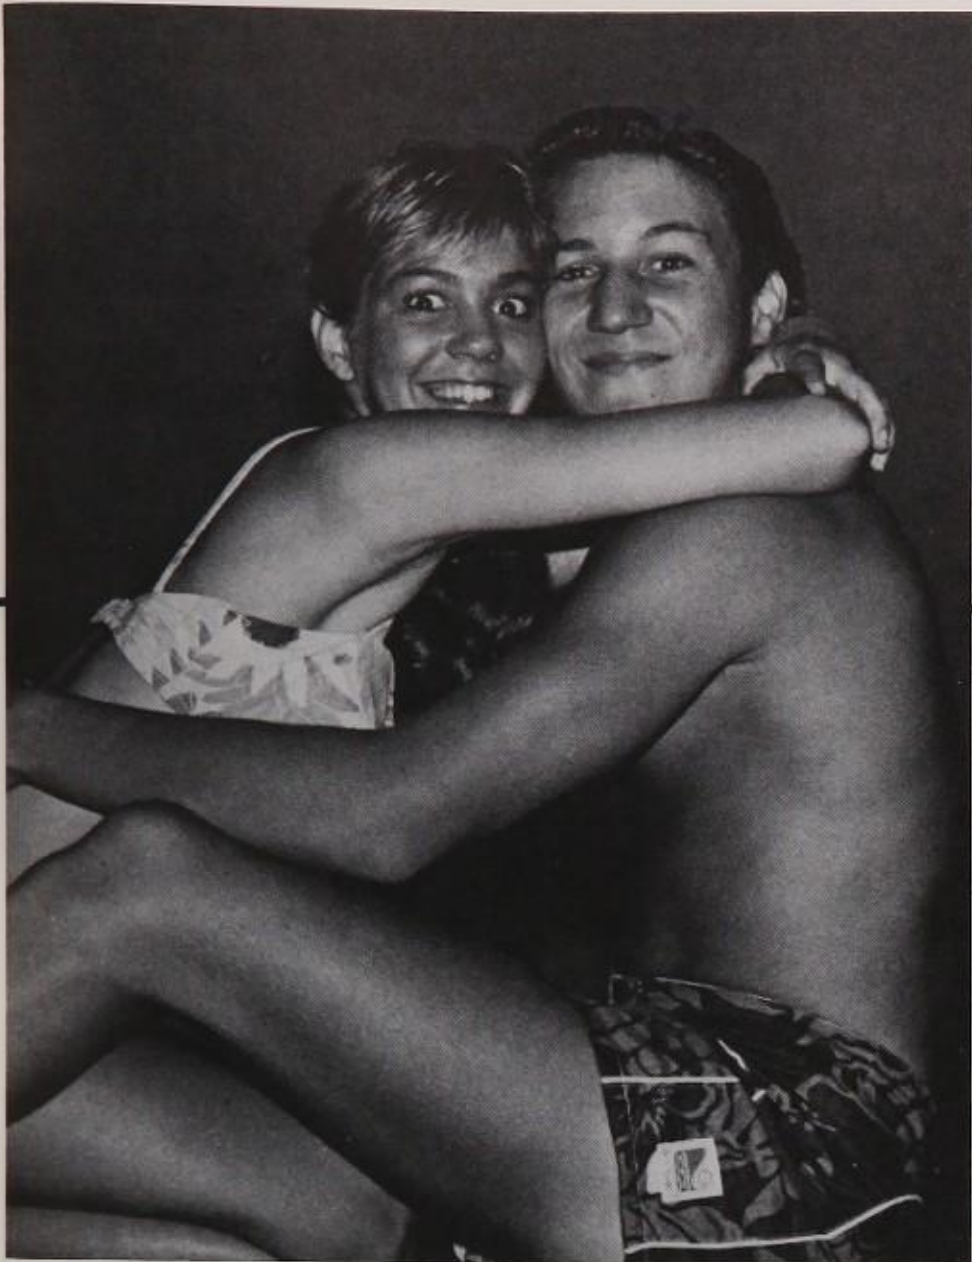

J BHS Department of Drama continued to produce two full scaled productions this past year. Burroughs audiences were taken to the beaches of Hawaii with "Gidget Goes Hawaiian" and flown to far off "Neverland" in "Peter Pan". In Addition — A Children's Theatre Touring Company took its production of "The Wizard of Oz" to local elementary schools thrilling youngsters with their first theatrical experience. "Tomorrow Entertainment" generously donated \$75,000 worth of sets to our department; thereby, enhancing our technical theatre capabilities to a new plateau.

Outstanding performances were turned in by Darla Dargenzio and Nannette Guest (tie — "Best Actress" category), Michael Alch and Tony Manocchia (tie — "Best Actor" category), David Flad ("Best Supporting Actor"), and Janet Eoff ("Best Supporting Actress"). ■

A message of thanks to all my friends: The people who made school worthwhile. Debbie: Yippy Skippy! It wouldn't have been the same without you, especially in English where I could watch you turn bright red at everything I did. Tracie — The radical volleyball player. Do you still want to be a little bar of soap. Tracy — Who completed our group making us four. Two Debbies and two Tracys. Scott — Who kept me from gaining weight by eating half of my lunch. Your eating habits always made lunch quite an experience.

DAVID — This is really dumb to make me write this on March 2. By the time you read it, so much will have happened and June 9th should be over. Hmmm. I wonder. I love you very, very much! We've been through a lot together, and I've enjoyed it all — even 11th grade. You're a very special person and I'm lucky to have you. You have done so much for me. Thank you for everything! I'll always remember the bad times — "cut the bull" and my inferiority complex, etc . . . and the many good times — "Gidget", "Peter Pan", Jazz Festivals, "42nd Street" (even though that's not until March 9), and so many more. You really made my Senior year worth it. I will always love you David Shawn Flad! And that means forever!

Gina

Bernice Nussbaum — I don't really know what to say except that you are the sweetiest person I know and I love you. It's going to be hard for me to see you leave. I'm really glad I got to know you. I hope when you leave we can still see each other and still keep in touch. For me Burroughs won't be the same without you.

I Love you,
Rickey Dumm

Kim Dumm & Cindi Barthelomy — To my two special friends.

Hey guys: Well this is our last hurrah. Seems just like yesterday that we were sophs, but were gone now! Remember the days of "ye ole" partying. Every weekend we would look for something to do but could never find anything. Remember the mind excusions, I really dug-on them!! How about the multiple assaults we pulled. We did everything, schoolish pranks and all that. The songs we listened to still ring through my head and forever will. Carpinteria was what I call a trip! Getting violet with the Ax really turned me off, and that wasn't the only thing!!! It was a real trip on the cliffs. Back to reality; wait I'm drifting off again ... Florintines, How about that place some of the funnest nights of my life. I'll always store those experiences in my head, I won't lose those! Burroughs did something to us. I think it drove us all insane. Looking back, I wish some of the people wouldn't have been so obnoxious to us or to even myself. I don't know if it was us or them but something went wrong. I think A combo. of both. What's done is done so no use going over it, but I'll tell you one thing. We knew where it was at. It was just our group. Everyone admired us but just never knew it. We knew how to have fun and I don't care what other people thought of us. I'm making this to long so I'll have to go. I love you all and wish all your trips to be happy one's ... Good Bye friends — Squirming Worm, Visual, Greenman, Lost Boy, Baby Vulture, Tongue and all ... Sorry if I left anyone out but I have A bad memory. GoodBye ... "The Poet" AKA (Erik S. Gauharou) "84"

Elena, Kimmibelle, Shelly, Bonni — Oh Wow! who could have ever guessed that what has all happened would happen? Do I make sense? You guys all hold special places in my heart forever. and Cindi — I'm so glad that you've found makes you the happiest — Omar. But don't forget that spaz summer with the church bus to the Beach!! Elena — ours is a friendship that can survive years of being apart — you are too special. Kim — I hope you live to see the day when you can make up your mind & no one objects! Shelly — I sit back and reflect on all the great times together — please take care! Elna & Shel — How did our lives survive?!? Bonni —

even though you transferred, You are a special friend!

Dean Reilly — I couldn't graduate without writing something to you. This is kind of like signing your yearbook, eh? You sure have been a great asset to my last two years at Burroughs. Sorry I bugged you so much. You have brought lots of fun into my life. I've really enjoyed knowing you. Good luck with your Trumpet (you'll be a good section leader) and everything else you want. I'll never forget you — although

I'm sure I'll see you again.

Love and friendship always!!

To all the Students, Teachers, and Administrators of JBHS. I would like to thank all of you for putting up with me and my bizarre and most unique style of Dress. I'll admit the high heeled booties and leg warmers were a little less than conservative. However, as the saying goes "Clothes make the man." But, you know I wouldn't trade my time as an American Rocker for anything. It has been the best experience of my life. I learned a lot about people's insecurities and a lot about first impressions, and, most of all, I learned how to walk in five inch heels! So I guess in twenty years you'll open up this yearbook and say "hey there's that guy with the leopard skin shirts and the bandanas, I wonder how he turned out . . . ?"

Sincerely yours
George White —
American Rocker

Love ya lots!

So many good times and some bad times. But we managed to make it through three years together. We have helped each other make it through the "dreaded show auditions" and we've shared the wonderful experience of performing in front of hundreds of people in "Auntie Mame," "Cabaret", "Gidget goes Hawaiian" and last put not least "Peter Pan". Thank you so much for being so helpful on dealing with "swine". And so many other problems. I hope and pray that we will be friends forever. I love you Heidi and take care of yourself!

Love ya lots

Boy! I'll tell ya, making a yearbook is a full on pain in my vertical smile, not to mention my lower posterior. No, seriously, the yearbook was extremely hard work, and required seemingly endless hours of utmost dedication to complete, but was nonetheless an enjoyable (?) experience. The completion of this year's Akela would not have been possible without the benefits of black coffee, Vivarin tablets, and the immeasurable assistance from the following people: Minesh, I'm serious, any guy who would sacrifice sleep for work on the yearbook has got to be a "hardcore" yearbook member. I probably would have suffered a dozen peptic ulcers and would have had all white hair by now if it weren't your willingness to help me out before deadlines; the same goes to George (even if you look like a Sunset call girl and shop in the women's hosiery depart. at Nordstroms) as your reliability, cooperation, and original headlines proved to bail us out in the end. Oh, and George, I wasn't taking a nap, nor did I wake up at **two** in the afternoon; Coleen, (hey, I spelled it correctly — "hey we learned that in Algebra"), for a person who had terminal pink eye and wasn't even on the Akela staff, you did one helluva job. Really, the Akela would not have been possible without your help and determination to sacrifice a good nights rest — (besides, who else would laugh at my jokes and impersonations?), and the rest of the Akela people: Laura, thanks for your hard work even if you felt like you didn't know what the "heck" you were doing; Heidi, the football section would have gone nameless if it weren't for you; Nhu Mai ("now it's official"), thanks hon' for your Esprit catalogs — oh, I hate panda bears; Mike B., "still want to be a waiter? Good luck at UCI; Julie, THANX!! Thanks for being a friend and a great typist! Tanya, Mike A., Michele, Viken, Laurel, Suzy, Larry, and Mike S., thanks anyway (only kidding!) — your help and cooperation was much appreciated.

Last and definitely least — no, only a joke Simmons, thank you for being a friend rather than just an advisor. I will never forget your advice — "No Brian, they will not open the Akela room just for you at 10:30 p.m.", your joking — ("How's that again?"), trivia knowledge ("who was in . . ."), and dumb lines — ("Come on Simmons gimme a straight answer," "If you're not helpin' you're hurtin." "Not now I'm busy.") Really, thanks for everything. (Oh, by the way, get a safety guard for your circular saw.) Our hard work and "nothing less than perfect attitude" really paid off in the end as Akela 1984 turned out to be a **great** one.
